

# BPCA PestEX

OFFICIAL  
SHOWGUIDE

13-14 March '24  
ExCeL, London  
[pestex.org](http://pestex.org)

The pest management show

MEETING A  
CHALLENGING  
FUTURE HEAD ON!  
Explore, network,  
innovate!

THE  
BIGGEST  
EVER!

**GOODBYE LADDERS,  
CRAWLSPACES, ATTICS  
& CEILINGS UNTIL THERE  
IS A VERIFIED CATCH**

## A WINNING COMBINATION

**Protecta®**  
**EVO TUNNEL®**

### VERSATILE & ECONOMICAL TRAP PROTECTION

- Tamper-resistant trap cover with EVO® key
- Can be secured horizontally or vertically, such as on fences or pipes, via cable ties
- Low, long profile for discreet placement

**TRAPPER®**  
**T-Rex®** **iQ™**

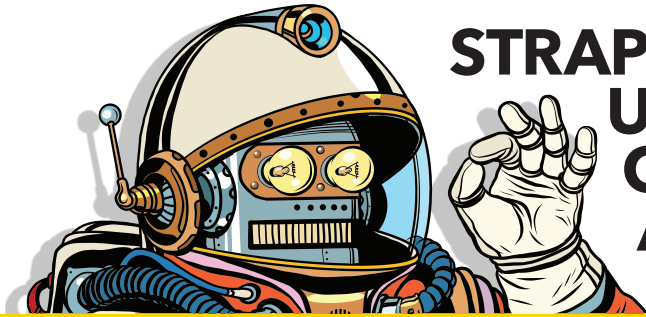

### NEVER CHECK AN EMPTY TRAP AGAIN

- Check traps without access
- Goodbye ladders, crawlspaces, attics & ceilings until there is a verified catch
- Simple to use:  
Catch =  No Catch = 

For information on how the Power of  products can enhance your rodent control service and solve problems at your accounts, contact your local Pest Control Distributor or visit [www.bellsensing.com](http://www.bellsensing.com).

# STRAP IN FOR THE ULTIMATE SHOWCASE OF INNOVATION AND EXPERTISE!

## Promising to be bigger and more impactful than ever before, British Pest Control Association's flagship pest management event is back for 2024!

PestEx brings together professionals, enthusiasts, and stakeholders under one roof for two days of networking, seminars, demonstrations and the opportunity to debate the biggest challenges facing the industry.

And speaking of bigger than ever – the exhibition hall now boasts an extra 152m<sup>2</sup> compared to previous events. This means more exhibitors, an unprecedented number of stands for you to explore and more state-of-the-art pest control technology for you to get to grips with.

From leading industry players to emerging innovators, the exhibition floor will be a bustling hub of information and networking opportunities.

You can see a full list of exhibitors and their stand numbers on pages 10-16.

Take a walk around the hall, and let the manufacturers and distributors of all your favourite pest control products show you their cutting-edge technologies, advanced trapping methods, and increasingly digital and eco-friendly solutions to traditional pest problems.

### A lot to learn

As always, PestEx is a chance for people to dive deep into the world of pest control, with a raft of insightful seminars featuring industry experts.

There will be talks, discussions and case studies on rodent behaviour, Asian hornets in the UK, fly management in the waste industry, biological warfare with moths and so much more! The full list of seminars and sessions can be found on page 6.

It's going to be an invaluable continuing professional development opportunity for pest professionals, giving you knowledge on the latest trends, best practices, industry news, and emerging challenges facing pest management.

### Move ahead together

PestEx 2024 is not just an exhibition, it's an educational platform designed to empower pest professionals with the know-how to stay ahead in a dynamic field.

As we attempt to meet a challenging future head on, we'll be holding debates on the industry's pressing issues. Experts will explore the changing landscape of the industry with topics such as post-EU product challenges for the UK, digital pest control and AI, and behavioural resistance.

These debates aim to foster discussions that will not only give pest controllers valuable knowledge, but also help to shape the future of pest management and how BPCA tackles them on behalf of our membership.

### Networking works

If you're looking to forge new partnerships, get advice or exchange ideas, PestEx 2024 is going to be your chance to connect with like-minded pest professionals, product makers, and industry leaders. It's a platform to build meaningful connections within the pest control community.

### Awarding excellence

Don't forget the BPCA Member Awards, which will take place at the end of the first day. These recognise positive contributions made by members to the Association and the wider pest management sector. The deadline to enter has passed, but keep an eye out for the shortlist at [ppconline.org/ppc-news](https://ppconline.org/ppc-news)

Visit [pestex.org/register](https://pestex.org/register) to make sure you and your team are on the guest list. With new products to get your hands on, the latest innovations in the industry to see, and competitions and prizes to be won, you can't afford to miss the opportunity to be part of the biggest pest control experience in the UK.

See you there!

Best wishes from  
BPCA's Events team.

## PRE-REGISTER FOR PESTEX FOR A CHANCE TO WIN A META QUEST 3

Anyone who pre-registers to attend PestEx in March will be entered into a prize draw to win a brand new Meta Quest 3 VR headset.

Each year BPCA offers an incentive for pre-registering to attend PestEx. This year we're looking to the future and we've gone big: we're giving away a Meta Quest 3 mixed reality VR headset!

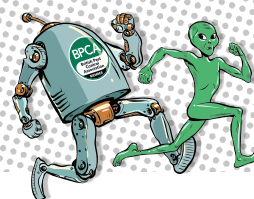

Simply register to attend the event before Friday 8 March and then attend PestEx to be entered into the prize draw.

After the show we'll draw a winner and the lucky person will be notified by email before we announce it across our social platforms!

**THURSDAY 14 MARCH AT 13:00**

**VISIT THE  
BPCA STAND  
TO FIND OUT  
WHERE!**

## TECHNICAL THEATRE

sponsored by

### DAY ONE: Wednesday 13 March

<b>ADVISION - THE POWER OF INDOXACARB!</b> Richard Moseley (Syngenta)	<b>09:30</b>
<b>RODENT BEHAVIOUR (THE EXPECTED AND THE UNEXPECTED)</b> Sharon Hughes (BASF)	<b>10:30</b>
<b>ASIAN HORNET - CURRENT SITUATION IN UK</b> Nigel Semmence (National Bee Unit APHA)	<b>11:30</b>
<b>TRADITIONAL METHODS IN A MODERN WORLD</b> Simon Whitehead (Pakefield Ferrets)	<b>12:30</b>
<b>PEST CONTROL AND MENTAL HEALTH</b> Paul Westgate (Veritas Pest Consultancy)	<b>13:30</b>
<b>FLY MANAGEMENT IN THE WASTE INDUSTRY - OPPORTUNITIES AND CHALLENGES</b> Clive Boase (The Pest Management Consultancy)	<b>14:30</b>
<b>RODENT TRAPPING - LESSONS FROM THE FIELD</b> Ed Dolshun (CatchMaster)	<b>15:30</b>
 <b>BPCA MEMBER AWARDS</b>	<b>16:30</b>

### DAY TWO: Thursday 14 March

<b>ADVISION - THE POWER OF INDOXACARB!</b> Richard Moseley (Syngenta)	<b>09:30</b>
<b>BEDBUGS IN 2024 - WHAT DO WE NEED TO KNOW?</b> Dr Richard Naylor and Alexia Naylor (Bed Bug Foundation CIC)	<b>10:30</b>
<b>DEVELOPING THE PUBLIC HEALTH WORKFORCE - HOW PEST CONTROL CAN PROTECT THE HEALTH OF THE NATION</b> William Roberts (RSPH)	<b>11:30</b>
<b>BIRDS MISBEHAVE - AN INTEGRATED APPROACH TO BIRD MANAGEMENT</b> Mark Wenman (Pelsis)	<b>12:30</b>
<b>WASPS - A PROBLEM ON THE HORIZON OR A CHANCE FOR GROWTH?</b> Alex Wade (Wade Environmental)	<b>13:30</b>
<b>COMMON STORED PRODUCT INSECTS OF THE UK</b> Richard Faulkner (envu)	<b>14:30</b>

#### BAG SOME CPD POINTS

**BPCA Registered**  
Each seminar session will be worth one CPD point with a maximum of seven points available per day. Don't forget to include your CPD number when you register for the event, to ensure we can scan your seminar attendance on the day.

**Basis Prompt**  
One point for each seminar, two points for attending the show. Members are able to gain a maximum of seven points per day (five for seminars and two for attending the show).

## SPOTLIGHT THEATRE

sponsored by

### DAY ONE: Wednesday 13 March

<b>BPCA BIG DEBATE - RESISTANCE IN INSECTS</b> Panel: Rich Faulkner (Envu); Avril Turner (Killgerm Chemicals); Peter Bowers-Davis (Integrum); Natalie Bungay (BPCA)	<b>09:30</b>
<b>BPCA BIG DEBATE - PEST CONTROL ONLINE SOCIAL MEDIA AND MARKETING</b> Panel: Jane Shepherd (Shepherd PR); Anna Mollins (PestFix); Kelly Farrant (Pest-Tech); Scott Johnstone (BPCA)	<b>10:30</b>
<b>BPCA BIG DEBATE - POST-EU CHEMICAL REGULATION: IMPACTS ON UK PEST CONTROL PRODUCTS</b> Panel: Dawn Kirby (Rentokil Initial); Darran Lebeter (1env); Dee Ward-Thompson (BPCA)	<b>11:30</b>
<b>BPCA BIG DEBATE - WHERE TO START WITH PEST CONTROL</b> Panel: Lewis Clarke (LRC Environmental); Karen Green (John O'Conner); Malcolm Stowell (Safeguard Pest Control); Dee Ward-Thompson (BPCA)	<b>12:30</b>
<b>BPCA BIG DEBATE - BEHAVIOURAL RESISTANCE</b> Panel: Dr Matthew Davies (RRAG); Chris Swindells (Kiwa Independent Pest Consultancy); David Lodge (Beaver Pest Control); Natalie Bungay (BPCA)	<b>13:30</b>

<b>BPCA BIG DEBATE - MOUSE CONTROL METHODS AND RISK (TOXIC VS NON-TOXIC)</b> Panel: Chris Parmiter (Pesttrain); Paul Westgate (Veritas Pest Consultancy); Nic Blazkowicz (Pelgar International); Iain Mackinnon (Pest Solutions); Natalie Bungay (BPCA)	<b>14:30</b>
--	--------------

<b>BPCA BIG DEBATE - DIGITAL PEST CONTROL AND AI</b> Panel: James Gilding (Vergo); Daniel Schroeer (Futura); Patrick Lynch (Bell Labs); Scott Johnstone (BPCA)	<b>15:30</b>
---	--------------

### DAY TWO: Thursday 14 March

<b>CASE STUDY - THE IMPACT OF RODENTS ON PATHOGEN SPREAD AND ANTIMICROBIAL RESISTANCE</b> Ana-Carolina Yamakawa (University of Reading) and Dr Matthew Davies (Killgerm Chemicals)	<b>09:30</b>
---	--------------

<b>CASE STUDY - WHY NON-TOXIC SHOULD ALWAYS BE OUR FIRST CHOICE</b> Elaine Bliss (PestFix)	<b>10:30</b>
---	--------------

<b>CASE STUDY - HOW DO WE NAVIGATE A SUSTAINABLE FUTURE?</b> Paul Bates (Cleankill)	<b>11:30</b>
--	--------------

<b>CASE STUDY - BIOLOGICAL WARFARE WITH MOTHS</b> John Stewart (Pelsis) and Chris Doherty (Graham Pest Control)	<b>12:30</b>
--	--------------

<b>FUTURE OF PEST MANAGEMENT SURVEY: THE RESULTS</b> BPCA Academic Relations Working Group	<b>13:30</b>
---	--------------

All seminars are completely free and open to everyone.

# TECHNICAL THEATRE AGENDA

**WHAT CAN YOU LEARN AT PESTEX THIS YEAR?**  
**CPD 14 CPD POINTS UP FOR GRABS DURING PESTEX!**

There's plenty to learn at PestEx 2024 - take a look at our in-depth seminar guide and plan your day around which expert talks you want to see.

## DAY ONE - MARCH 13

09:30 - 10:15

### ADVION - THE POWER OF INDOXACARB!

Presented by Richard Moseley (Syngenta)

Indoxacarb gives a unique way to tackle insect pests. Find out how the bioactivation properties of highly palatable Advion means it only becomes a targeted toxic bait for insects after it has been ingested. See how to use pests to carry Advion back to their harbourages, and effectively eradicate infestations.

10:30 - 11:15

### RODENT BEHAVIOUR, THE EXPECTED AND THE UNEXPECTED

Presented by Sharon Hughes (BASF)

Rats and mice are exploratory creatures; however rats are naturally neophobic and mice can also exhibit neophobic behaviour.

How do we recognise unexpected behaviour and then adapt the rodent control programme to accommodate this behaviour?

11:30 - 12:15

### ASIAN HORNET - CURRENT SITUATION IN UK

Presented by Nigel Semmence, (National Bee Unit APHA)

Nigel will talk about the current situation with Asian hornets in the UK, covering the historic perspective as well as last year's response.

He will also cover a summary of the current response as well as details about what to expect from the ongoing science being conducted by Fera science Ltd on behalf of Defra.

12:30 - 13:15

### TRADITIONAL METHODS IN A MODERN WORLD

Presented by Simon Whitehead (Pakefield Ferrets)

Simon will talk about the vital role and the environmental benefits traditional management plays in the hi-tech world of wildlife management across the UK. Throughout the decades Simon has seen a gradual return to modern values and traditional, organic methods of management in a world where the use of toxins and poisons is becoming limiting as each year passes.

13:30 - 14:15

### PEST CONTROL AND MENTAL HEALTH

Presented by Paul Westgate (Veritas Pest Consultancy)

During this session Paul will draw on his 20+ years of experience in urban pest management to explore some of the aspects of mental health which pest professionals may come into contact with in their roles, such as delusional parasitosis.

14:30 - 15:15

### FLY MANAGEMENT IN THE WASTE INDUSTRY - OPPORTUNITIES AND CHALLENGES

Presented by Clive Boase (The Pest Management Consultancy)

The waste industry remains a challenge for pest control. Of the various pests that can occur, flies create the most serious problems, as a result of their rapid reproduction and widespread dispersion. This session discusses current practices, technical issues and commercial opportunities.

15:30 - 16:15

### RODENT TRAPPING - LESSONS FROM THE FIELD

Presented by Ed Dolshun (Catchmaster)

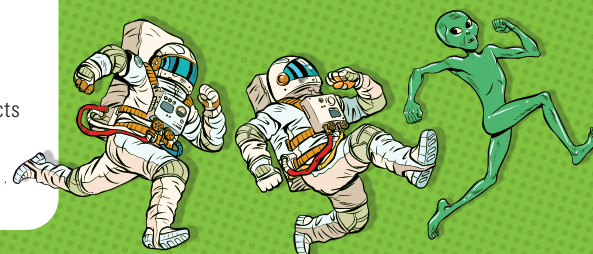

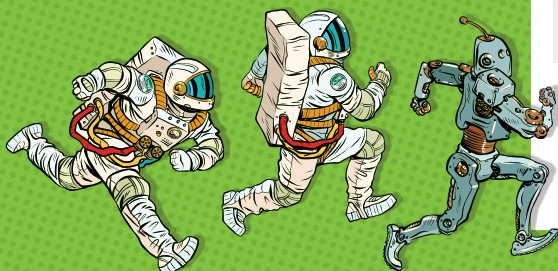

Modern monitoring methods have allowed us to see how rodents interact with our equipment. The program will discuss lessons learned from the field and how to improve trapping techniques.

16:30 - 17:00

### BPCA MEMBER AWARDS

Come along to see who are the big winners at this year's BPCA Member Awards!

CONTINUED

**DAY TWO – MARCH 14**

**09:30 - 10:15**

**ADVION – THE POWER OF INDOXACARB!**

Presented by Richard Moseley (Syngenta)

Indoxacarb gives a unique way to tackle insect pests. Find out how the bioactivation properties of highly palatable Advion means it only becomes a targeted toxic bait for insects after it has been ingested. See how to use pests to carry Advion back to their harbourages, and effectively eradicate infestations.

**10:30 - 11:15**

**BEDBUGS IN 2024 – WHAT DO WE NEED TO KNOW?**

Presented by Dr Richard Naylor and Alexia Naylor (Bed Bug Foundation CIC)

In 2018, we developed a new research facility at Cimexstore.co.uk, which includes two test bedrooms, where bedbugs can be released and monitored. We will share some of the unique behaviour that we have observed and apply this to current IPM strategies to support more effective treatment.

**11:30 - 12:15**

**DEVELOPING THE PUBLIC HEALTH WORKFORCE – HOW PEST CONTROL CAN PROTECT THE HEALTH OF THE NATION**

Presented by William Roberts (RSPH)

William will share the work RSPH has done around developing the public health workforce and talk about what this might mean for the pest control sector, as well as sharing thoughts on how we can promote pest control as both a profession and a public health career.

**12:30 - 13:15**

**BIRDS MISBEHAVE – AN INTEGRATED APPROACH TO BIRD MANAGEMENT**

Presented by Mark Wenman (Pelsis)

How to use bird behaviour, biology and knowledge of different solutions strengths to propose an integrated approach to bird management.

**13:30 - 14:15**

**WASPS – A PROBLEM ON THE HORIZON ON A CHANCE FOR GROWTH?**

Presented by Alex Wade (Wade Environmental)

With the consolidation of the products in our tool kit, we might be forgiven for thinking that the future of wasp control might not look so bright. But is this a blessing in disguise? Is there opportunity to be taken from this change?

**14:30 - 15:15**

**COMMON STORED PRODUCT INSECTS OF THE UK**

Presented by Richard Faulkner (envu)

How to identify the common species of beetle and moth, basic biology and lifecycle, and whistle stop through treatment.

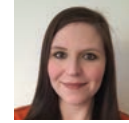

**DAY ONE – MARCH 13**

**09:30 - 10:15**

**BPCA BIG DEBATE**

**RESISTANCE IN INSECTS**

Presented by Rich Faulkner (envu); Avril Turner (Killgerm Chemicals); Peter Bowers-Davis (Integrum Services); Natalie Bungay (BPCA)

**10:30 - 11:15**

**BPCA BIG DEBATE**

**PEST CONTROL ONLINE SOCIAL MEDIA AND MARKETING**

Presented by Jane Shepherd (Shepherd PR); Anna Mollins, (PestFix); Kelly Farrant (Pest-Tech); Scott Johnstone (BPCA)

**11:30 - 12:15**

**BPCA BIG DEBATE**

**POST-EU CHEMICAL REGULATION: IMPACTS ON UK PEST CONTROL PRODUCTS**

Presented by Darran Lebeter (1env); Dawn Kirby (Rentokil); Dee Ward-Thompson (BPCA)

## 12:30 - 13:15 BPCA BIG DEBATE

### WHERE TO START WITH PEST CONTROL

Presented by Lewis Clarke (LRC Environmental); Karen Green (John O'Conner); Malcolm Stowell (Safeguard Pest Control); Dee Ward-Thompson (BPCA)

## 13:30 - 14:15 BPCA BIG DEBATE

### BEHAVIOURAL RESISTANCE

Presented by Dr Matthew Davies, (Rodenticide Resistance Action Group); Chris Swindells (Kiwa Independent Pest Control); David Lodge (Beaver Pest Control); Natalie Bungay (BPCA)

## 14:30 - 15:15 BPCA BIG DEBATE

### MOUSE CONTROL METHODS AND RISK, TOXIC VS NON-TOXIC

Presented by Chris Parmiter (Pesttrain); Paul Westgate (Veritas Pest Consultancy); Nic Blaszkowicz (Pelgar); Iain Mackinnon (Pest Solutions); Natalie Bungay (BPCA)

## 15:30 - 16:15 BPCA BIG DEBATE

### DIGITAL PEST CONTROL AND AI

Presented by Daniel Schroeer (Futura); James Gilding (Vergo); Patrick Lynch (Bell Labs); Scott Johnstone (BPCA)

## DAY TWO - MARCH 14

### 9:30 - 10:15

#### CASE STUDY THE IMPACT OF RODENTS ON PATHOGEN SPREAD AND ANTIMICROBIAL RESISTANCE

Presented by Ana-Carolina Yamakawa (University of Reading) and Dr Matthew Davies (Killgerm Chemicals)

A discussion of original PhD research on the role of rats and mice in the dissemination of pathogens and antimicrobial resistance. The research aims to enhance disease understanding, ultimately contributing to improved health outcomes for both animals and humans.

### 10:30 - 11:15

#### CASE STUDY WHY NON-TOXIC SHOULD ALWAYS BE OUR FIRST CHOICE

Presented by Elaine Bliss (PestFix)  
A discussion about why integrated pest management should always start with a non-toxic option.

## 11:30 - 12:15

#### CASE STUDY HOW DO WE NAVIGATE A SUSTAINABLE FUTURE?

Presented by Paul Bates (Cleankill)  
Is sustainability just the 'flavour of the day' or can we as an industry ethically have a genuine effect on creating a lasting environment?

## 12:30 - 13:15

#### CASE STUDY BIOLOGICAL WARFARE WITH MOTHS

Presented by John Stewart, (Pelsis) and Chris Doherty (Graham Pest Control)

Graham Pest Control was asked by a large department store to solve a long-standing moth problem over multiple floors. Traditional chemical control was restricted due to the layout of the store and number of items in it. Find out how the situation was managed during this talk.

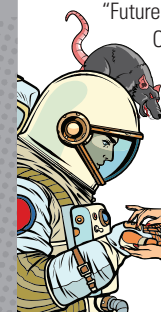

## 13:30 - 14:15

#### FUTURE OF PEST MANAGEMENT SURVEY: THE RESULTS

**HELP US PROTECT YOUR TOOLKIT!**

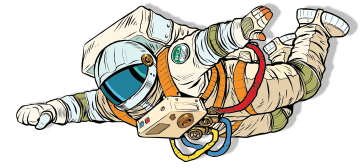

BPCA Academic Relations Working Group

BPCA's Academic Relations Working Group will present the initial findings from our "Future of pest management survey".

Over 800 pest professionals contributed to the survey and the presentation will cover everything from rodenticide usage, trapping, technology, rodenticides, regulation, licensing and sustainability.

# DISCOVERING INNOVATION: WHO'S EXHIBITING AT PESTEX'24?

## 1env Solutions

STAND 87

+44 (0)1702 525 202

1env.com

sales@1env.com

1env Solutions is one of the UK's leading manufacturers and distributors of traditional and innovative pest control products to the pest control industry. Over the last 10 years, 1env Solutions has built a reputation for quality, world class customer service, technical support, and training.

## A & M Hawk UK

STAND 76

+44 (0)844 991 4295

amhawk.co.uk

info@amhawk.co.uk

New for 2024 – drone surveys added to our range of services to the pest control sector! Specialists in falconry response for bird control and drone flying services. Our qualified pilots are seasoned professionals, possessing an in-depth understanding of the problems that pests and nuisance birds can cause. PestEx special: free site survey London and south-east (Berkshire, Buckinghamshire, Essex, Hampshire, Hertfordshire, Kent, Oxfordshire, Surrey, East Sussex, West Sussex).

## Airgun Training & Education Organisation (ATEO)

STAND 86

+44 (0)7761 237 633

ateo.org.uk

dave@ateo.org.uk

ATEO is the leading airgun training organisation in the UK, providing bespoke airgun training to the pest control and leisure industries. On the stand we have a range of BSA rifles, new night vision, a self-contained compressor – all suitable for the pest control professional. Come and talk to us about your training needs!

## Airofog Machinery

STAND 10

+86 21 5190 5296

airofog.com

airofog@airofog.com

With more than 30 years' global experience, we supply a comprehensive range of professional application

equipment for the industry, from compression sprayers to ULV and thermal foggers. Airofog vector control equipments are certified by international authoritative test centers to conform to the strictest professional standards. Airofog, your wise choice for professional pest-control equipment.

## Alcochem Hygiene

STAND 88

+31 402 220 492

alcochemhygiene.com

hygiene@alcochem.com

Alcochem Hygiene is one of the leading companies for insect control units operating worldwide. They specialise in non-chemical pest control products, like electric fly killer (EFK) units, UV-A lights and glue boards. The pest control products of Alcochem Hygiene are being developed based on scientific studies before entering the market of pest control. Alcochem Hygiene developed a programme for high quality swappable LED tubes especially suited for EFKs.

## Aldef Global

STAND 78

+48 508 873 295

aldefglobal.com

info@aldefglobal.com

Aldef Global, a family-owned company headquartered in Poland, is led by Ana Francisco, a seasoned professional with over 20 years in the pest control industry. Specialising in contract manufacturing and private label services, Aldef Global delivers top-notch solutions, combining expertise and innovation to meet diverse client needs in the market.

## Andermatt UK

STAND 11

+44 (0)1273 082 195

anderstattuk.com

contact@anderstattuk.com

Bed bugs are forever a problem, their treatment a constant battle. Whether looking for long-term prevention, adding value to a treatment package or saving costs of post-treatment return visits, InsectoSec Tape can help. Discover more about the products at our stand, and with seminars from Richard and Alexia Naylor (bed bugs) and Nigel Semmence (Asian hornets).

## Animal & Plant Health Agency

### Animal and Plant Health Agency (APHA)

STAND 43

+44 (0)2080 262 463

gov.uk/government/organisations/

animal-and-plant-health-agency

nss@apha.gov.uk

APHA is the lead Defra agency responsible for safeguarding plant and animal health for the benefit of the people, environment and economy of the UK. Representatives from APHA's National Bee Unit and Non-native Species Inspectorate will be attending PestEx.

## AP&G Catchmaster

STAND 26

catchmasterpro.com
